Flushing	Caused or prolonged inpatient hospitalisation		

Medicine details :

RISPERIDONE (Suspected)	Reason :
2 Milligram	Daily
Oral	
Batch :	Started : 03/02/2007
	Stopped : 06/02/2007
SERTRALINE HYDROCHLORIDE (Suspected)	Reason :
100 Milligram	Daily
Batch :	Started :
	Stopped : 03/02/2007

Public Case Detail

Cases Count: 98

Case Number : 236917

Data Entry Date : 14/01/2008

Gender : M

Hospitalisation :

Weight (kg) : 70

Onset Date : 14/04/2006

Age :

DOB : 24/06/1963

Outcome :

Causality : Causality probable

Recovered

Information: Consumer reports : For more information see:
<http://users.bigpond.net.au/savio-reality/MyStory.htm> These anti-depressants should be banned outright - how many more people have to die or be affected for the rest of their lives?. When will the TGA DO SOMETHING instead of blindly following the US FDA?

Reaction :

Preferred Term	Severity	Report Description	Treatment
Self injurious behaviour		About 4 weeks after taking Zoloft attempted self harm, requiring mutiple hospital visits. Antidepressants were recommended by a specialist (Gastroentrologist)- who missed an actual diagnosis of Eosinophilic Esophagtis.	
Drug withdrawal syndrom		nausea and headaches during the weaning off process	

Medicine details :

ZOLOFT (Suspected) Reason :
 Capsule 50 Milligram Daily Oral
Batch : **Started :** 07/03/2006 **Stopped :** 25/04/2006

Information:

Reaction :			
Preferred Term	Severity	Report Description	Treatment
Anxiety	Caused or prolonged inpatient hospitalisation	Went from a girl with anxiety and a little depression to a girl who could not function and could quite easily have committed suicide. This drug was given to her with very little information on these side effects and a mental health registrar told her to double the dose she was on, which in my mind would have killed her.	
Depression	Caused or prolonged inpatient hospitalisation		
Suicidal ideation	Caused or prolonged inpatient hospitalisation		

Medicine details :
